PERSONAL PROJECTS

•Trimachine

it is an hardware tool, which is used for agriculture. Automation was done by the blynk which is the best platform for IoT using Embedded

– Tools & technologies used: Advanced sensors, Embedded C

– More useful for farmers to get the tools in a budget-friendly manner. I really satisfied with this project, I got S grade by this project in DT.

•Codespace

Developed a real-time collaborative coding platform with integrated chat, shared terminal, and Monaco Editor, enabling developers to disc

– Tools & technologies used: Built using React/JSX, Node.js, Socket.IO, and Monaco Editor, with user authentication through Sign Up/Login.

– The platform is actively used by peers for collaborative development.. I really satisfies with my project ..because my friends also using this app
